Why we are telling you

Clearly there is a dramatic increase in criminal activity in our area, largely house breaking. We are advising you now so you are aware as soon as possible and can ensure you take all sensible steps to protect your home and look out for your neighbours, **remember if it looks suspicious it probably is**.

How you can help

Make sure you keep your property secure by taking all sensible steps. If you are going away on holidays let your co-ordinator know, if not at least tell a neighbour and arrange for mail and deliveries to be recovered promptly.

Keep a keen lookout without putting yourself in danger, **if you see someone or persons who seem unusual hanging around or a vehicle going up and down the road that looks suspicious get the details (registration) and report it to the police immediately using 999.** Do not worry if it's a false alarm, the police want to check out activity and your report maybe the one that puts them onto the offenders.
